

# Company Presentation

*Simply the Best!*

Oil & Gas

Infrastructure

Ships

Wind Energy

Water Treatment

Clean Room

# Welcome to Oglaend System Group

Oglaend System was founded in 1977 in Sandnes, Norway. From day one our company's goal was to become the market's leading supplier of multidiscipline support systems, cable tray and cable ladder. Today the Oglaend System Group is a highly internationalized corporation with 13 subsidiaries and more than 20 agents located all over the world. Our three factories are located in Norway, Malaysia and China. The Oglaend System sales companies offer an extensive local stock and the best possible supply chain in the market. We are serving customers within Oil & Gas, Infrastructure, Ship building, Wind Energy, and other industries such as Water Treatment and Clean Room.

## **We make you more competitive**

One of our strongest arguments is that we make our customers more competitive. MultiGrid® can reduce the total system cost of an EPC project by up to 30 percent. This is achieved by reducing weight, cutting installation and engineering time, optimizing coordination between disciplines and simplifying future modification work. And last but not least it improves your safety performance.

***We are looking forward to doing business with you,  
and making you more competitive.***

  
Geir Austigard  
CEO

# We offer a Complete Support System

We have an extensive and complete product portfolio. We offer complete containment systems for electrical, instrument, telecom and piping. We offer starter brackets for both hot and cold work for multidiscipline support systems. In addition, we can provide additional custom made items that may be required to complete an installation. Ask for our best practice guides for **Oil & Gas, Wind Energy, Ship building and Infrastructure.**

# Global Customer Satisfaction

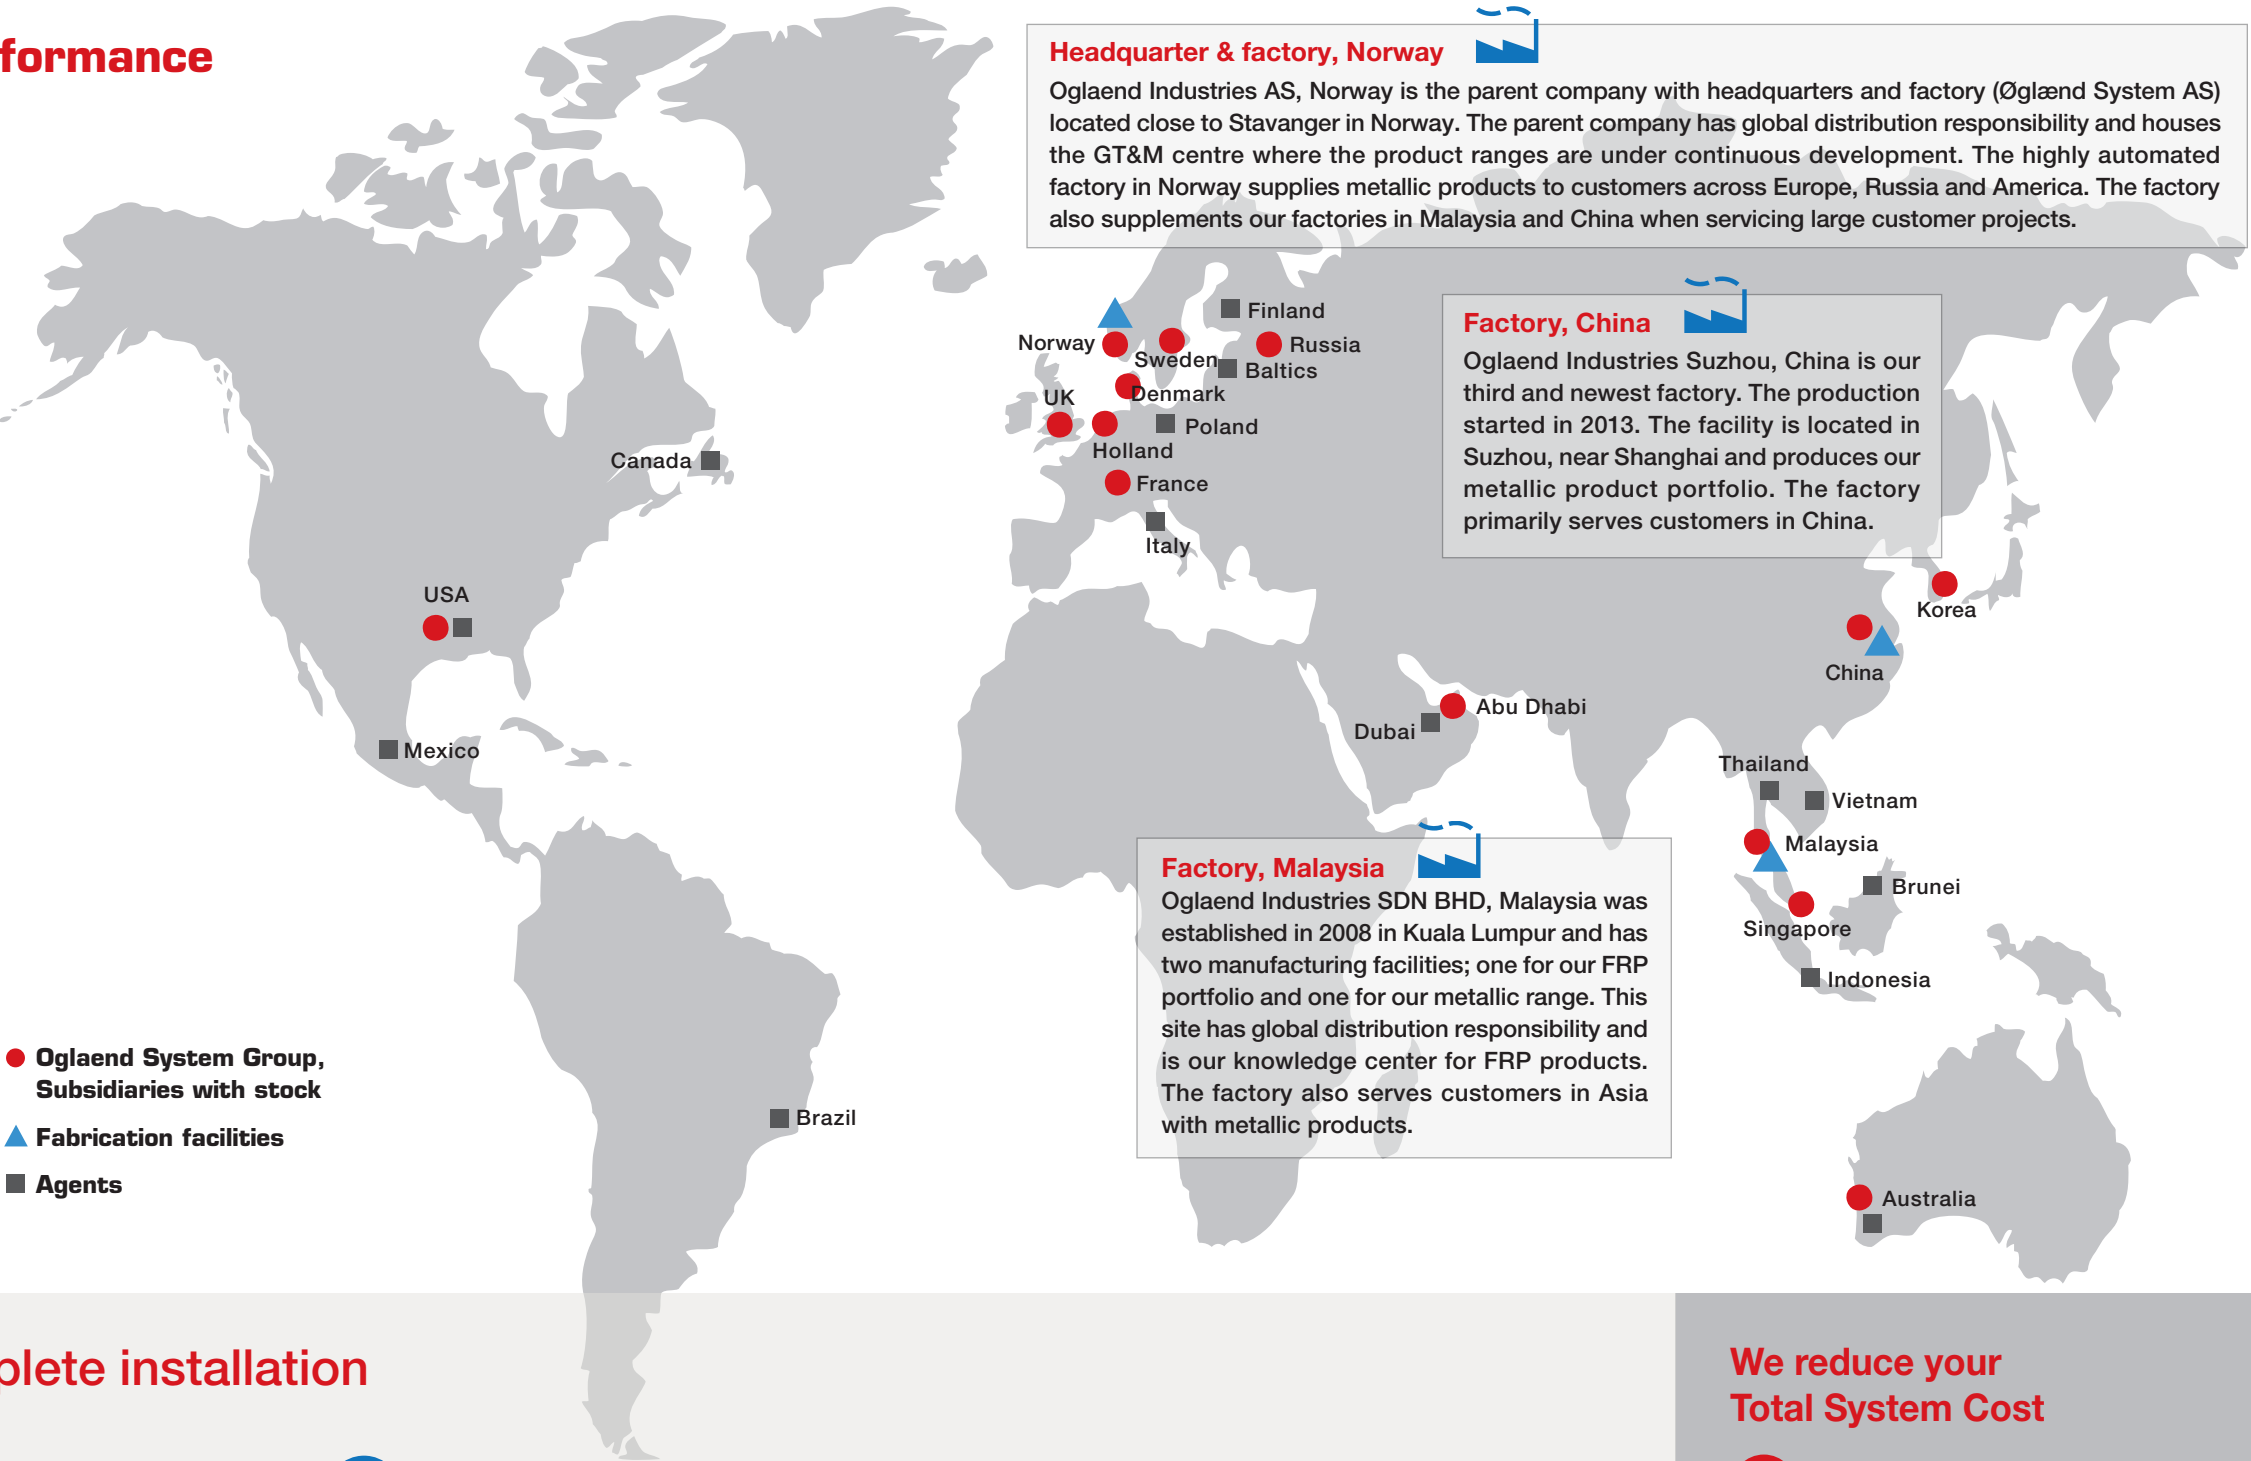

- with Superb Supply Chain Performance

Customer focus is one of our core values. As our customers are spread globally we have developed a first class supply chain network, with three production sites and international sales subsidiaries.

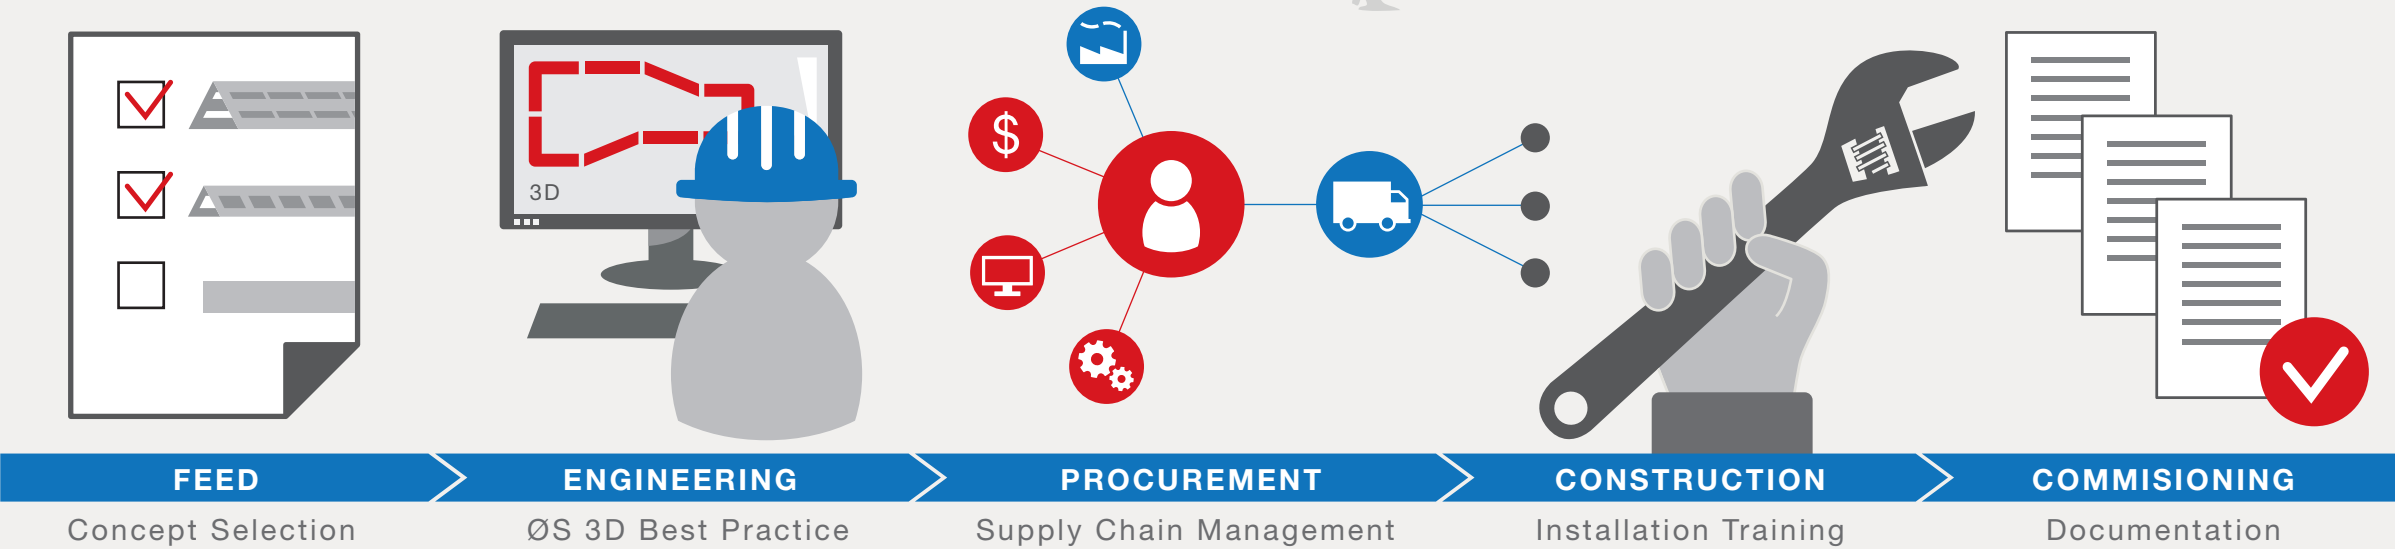

This network ensures flexibility and short delivery time to consistently meet and exceed customers expectations and demands.

Oglaend System holds an extensive list of local and international certifications and approvals, such as ISO 9001, ISO 14001 and OHSAS 18001. We have many products and solutions that are patented, registered or trademarked.

## From conceptual design to complete installation

How we work with you, our customer.

## We reduce your Total System Cost

- Flexible cold work solutions
- Improved safety performance
- Save up to 30% weight and volume
- Up to 50% quicker installation
- Long life and integrity
- Save up to 30% total system cost

## VALUE PROPOSITION

**Oglaend System** develop, manufacture and sell multidiscipline support solutions, cable trays and cable ladders to the following industries worldwide: Oil & Gas, Infrastructure, Ship building, Wind Energy, Water Treatment, marine farming and many other industries.

These solutions deliver added value through reduced installation time, maximized volume utilisation, weight reductions, enhanced lifetime integrity and improved safety performance.
